Musings on a 40 Year Career in the Health, Safety and Environmental Management Profession

Lawrence M. Gibbs, CIH, FAIHA

Extracting from over 40 years of experience in developing and leading environmental health and safety (EH&S) programs in higher education and major academic research programs, including involvement in many professional associations, the presentation will provide an overview of the major events, issues and cultural changes that have driven EH&S program evolution during that time. Included will be a review of where the profession has been, is currently, and musings and prognostications for the future. The presentation will use case studies and stories to illustrate various perspectives and viewpoints.
