

COVID-19: Health and Safety Programs Protect Workers

CLEAR COMMUNICATION AND TRAINING IN ALL PROGRAM ELEMENTS IS ESSENTIAL.
COMMUNICATE PROTECTIVE MEASURES AND REQUIREMENTS TO ALL WHO ENTER WORKPLACE.

- 4**
- Keep plan up-to-date.
 - Evaluate/adjust/modify controls.
 - Ensure worker rights and protections.
 - Conduct audits/maintain detailed, written records.
 - Investigate incidents (outbreaks).

- 3**
- Select and implement feasible protective measures.
 - Prioritize source & pathway controls over personal protective equipment (PPE) — see the control banding fact sheet in this series for more info.

- 1**
- Provide leadership/management commitment.
 - Ensure employee participation.
 - Involve Human Resources/union/employment law support.
 - Develop written policy and procedures.

- 2**
- Identify exposure risks for all job tasks.
 - Evaluate supply/equipment needs.

APPLIES TO ALL WORKSITES & EMPLOYER-PROVIDED TRANSPORTATION & HOUSING
